## **IT La bellezza del processo creativo: dall'idea alla forma.**

La decorazione è un universo affascinante che esploriamo con curiosità e passione per proposte inedite e ricercate. Produrre una superficie significa per noi elaborare un'idea, un pensiero nuovo, trovare chiavi di lettura contemporanee per dare vita a prodotti che durino nel tempo, capaci sempre di distinguersi per qualità dei materiali e attenzione al dettaglio.

Lavoriamo al design e alla realizzazione di nuovi materiali in modo diretto e sincero, a partire dalla funzione d'uso cui il prodotto è destinato, per arrivare al cuore del pensiero creativo e dare forma a nuove sensazioni visive e tattili.

La ricerca, lo studio e la sperimentazione si arricchiscono grazie alla collaborazione con alcune delle figure più interessanti nel panorama della decorazione di interni e del design internazionale.

La sensibilità di ogni designer, le esigenze dei progettisti, le tecnologie applicabili e le destinazioni d'uso, aprono di volta in volta nuovi scenari.

La realizzazione di una nuova collezione prende forma, come a partire da un foglio bianco sul quale creare una nuova composizione, per dare vita ad un unico e sempre, per noi, sorprendente risultato.

## **EN The beauty of the creative process: from idea to form.**

Home decor is a fascinating world, that we explore with curiosity and passion in creating our unusual and sought-after styles. For us, creating a surface means developing an idea, something new and original. It means finding a modern interpretation of timeless products, bringing them to life with such high-quality materials and attention to detail that they will always stand out.

We design and create our materials in a straightforward and honest manner, beginning with the functional use of the product in mind, in order to get to the heart of the creative process and give shape to new visual and tactile sensations.

Our research, study and experimentation are all enriched by our collaboration with some of the most fascinating players on the international stage of interior decor and design. The sensibilities of the designers, the needs of the architects, the applicable technologies and the eventual end use of the product can open doors to new paradigms and ideas. The creation of a new collection takes shape like a painting on a blank canvas, bringing unique results to life that, for us, are always a happy surprise.

**Bio:**

<sup>IT</sup> DB Studio (Decoratori Bassanesi Studio) corrisponde al gruppo interno di ricerca e sviluppo di Decoratori Bassanesi: oltre a coordinare tutte le ricerche in fase di laboratorio, progetta esso stesso alcune delle collezioni, nella fattispecie Trax, Seeds e Luci di Venezia. Si tratta di un gruppo "aperto" e sempre pronto a collaborazioni con color designer, decoratori, progettisti. DB Studio porta costantemente avanti una ricerca interna al marchio che arricchisce e completa le collaborazioni con i decoratori e i designers che di anno in anno selezioniamo per progettare le nuove collezioni.

<sup>EN</sup> DB Studio (Decoratori Bassanesi Studio) is the internal R&D group of Decoratori Bassanesi. In addition to coordinating the workshop stage of all research projects, the group also designs some of the studio's collections (in this volume, Trax, Seeds and Luci di Venezia.) It is an "open" group, always ready to collaborate with colour designers and interior decorators. DB Studio is constantly hard at work on internal brand research to enrich and expand their collaborations with the decorators and designers selected throughout the years to design new collections.

▮ Abbiamo lavorato alla creazione di collezioni uniche per qualità e bellezza, collaborando con i nomi più interessanti del design internazionale, guidati però dalla precisa volontà di proporre un catalogo basato non solo sul singolo prodotto, ma anche sulle relazioni tra prodotti diversi. Formati, colori e tipologie di ogni singola collezione, di seguito riportati, fanno parte di questo studio progettuale e consentono risposte articolate alle necessità dei committenti. Il tema della decorazione è stato sviluppato in modo fortemente coerente ai linguaggi dell'interior contemporaneo.

▮ In working towards the creation of these unique, high-quality and beautiful collections, collaborating with the most interesting designers on the international scene, we were guided by our desire to present a catalogue that would not be based on one single product but rather on the relationships between different products. Formats, colours and types of every collection listed in the following pages are all part of this design project and make it possible for us to provide the ideal solutions to our clients' needs. The theme of the decor has been developed in harmony with the visual language of contemporary interiors.
