Porcelain Tile

Peel & Stick Matt

EZ TECH

A RADICAL NEW WAY TO INSTALL TILE

Utilizing the patented EASY Floating Floor System

Division 9 Collaborative
617-991-3392

WHAT IS IT

Peel & Stick Matt

New Porcelain Tile

Old Floor

EZ TECH is a completely new and radical way to install large format porcelain floor tiles, free of any glue or grout. The large format porcelain stoneware is reinforced with fiberglass to ensure a lightweight, stain resistant and versatile product that provides a unique aesthetic and extraordinary functionality. This system allows for less down time for lobby and retail installations and the reduced overall height makes it ideal for applications where height constraints are a concern, especially in retrofit installations, avoiding the costly need to remove the pre-existing material. The tile can even be removed once the lease or time frame has expired.

The EZ TECH technology also offers acoustical benefits, especially for high rise installations where noise transmission can be an issue and also in restaurants where sound is often amplified as a result of hard surface materials.

FEATURES

NOISE CANCELLATION

Reduces footfall noise to the lower floors by approx 16x more than ordinary adhered ceramic floors

NO GLUE/GROUT

Simply peel & stick the adhesive mat to the existing floor. A quick dry sealant is used to seal the joints after installation

AVERAGE INSTALL 3-4 HOURS

DURABLE

AFFORDABLE

WATERPROOF

RETRO FIT

Retro fit to put on top of existing

ENVIRONMENTAL

Allows periodic replacement and reuse of the material

LOW DOWN TIME

ASSEMBLY

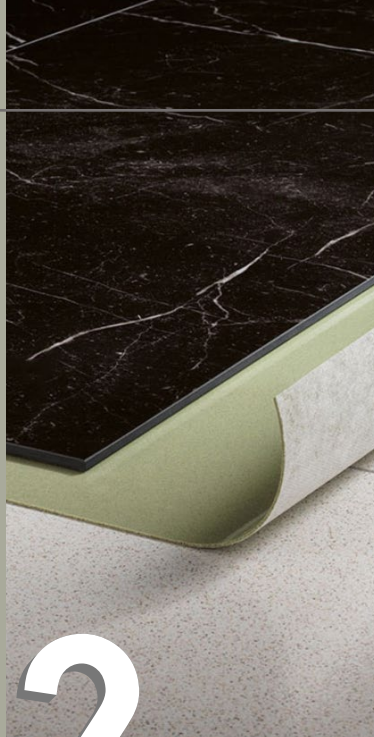

1

UNROLL ADHESIVE MAT

1

After verifying that the subfloor is clean and level, proceed with laying the silent soundproofing mat on the entered floor area

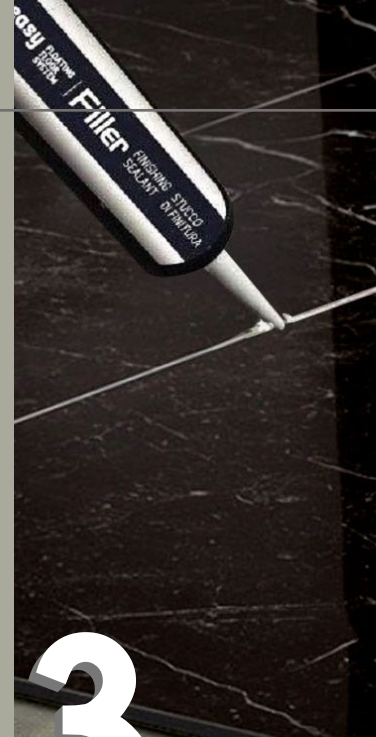

2

LAY EZ TECH TILE SLABS

2

Lay the EZ TECH slabs directly on the mat without the use of adhesives allowing 2mm spacing to maintain the joint

3

SEAL THE TILE JOINTS

3

After laying EZ TECH on the floor, its necessary to seal the spaces between the slabs with Filler

4

PERFECT SURFACE

4

Once dry this sealant guarantees a perfect walkable and waterproof surface
