I parati artigianali materici

realizzati su teli di intonaco steso a mano e spessi solo 1 millimetro

L'atelier esclusivo dove progettare pareti sartoriali con un materiale nato per stupire.

A sorprendere chi per la prima volta tocca con mano il nostro prodotto è proprio la sua matericità. Non si era mai visto prima un muro che si arrotola e non si sgretola.

I parati sono realizzati con uno strato di intonaco spesso solo 1 millimetro ottenuto con un impasto di diverse materie prime di pregio, come il marmo di Carrara e il travertino romano sui quali sono stati scolpiti i capolavori della storia dell'arte italiana.

Oggi, con lo stesso materiale, rivestiamo le vostre pareti per renderle dei veri capolavori.

Il risultato è una superficie naturale, al tatto e alla vista, che evoca quella degli antichi affreschi.

Handcrafted textured wallpapers

made on plaster sheets spread by hand and only 1 millimetre thic

The exclusive atelier where designing tailored walls with a material born to surprise.

What amazes those who touch our product for the first time is its materiality. We had never seen a wall that rolls up and does not crumble before.

The wallpapers are manufactured with a 1 mm layer of plaster obtained with a mixture of precious raw materials, such as Carrara marble and Roman travertine on which the masterpieces of Italian art history have been carved.

Today, with the same material, we coat your walls to make them real masterpieces. The result is a natural surface, to the touch and to the sight, that evokes that of the ancient frescoes.

Philosophy

La collezione di design di carte da parati per Affreschi & Affreschi segue lo stile della linea singola caratteristico dell'artista, e il loro tema comune è incentrato sulle connessioni umane.
I design rappresentano l'interazione umana in una varietà di forme basate sull'equilibrio e sulla comunicazione fluida.
La maggior parte dei design di Dalli per Affreschi & Affreschi si basano su disegni che sono stati realizzati con una singola linea, vale a dire senza mai sollevare la penna dalla carta. In questo modo l'artista vuole trasmettere un senso di unità, fluidità e minimalismo. Con Pablo Picasso come una delle fonti di ispirazione più ricorrenti, lo stile artistico della linea singola sta guadagnando oggigiorno un crescente riconoscimento, essendo poi legato alla filosofia del minimalismo e della semplificazione, che sono anche una delle tendenze del design d'interni più richieste.

Philosophy

The collection of wallpaper designs for Affreschi & Affreschi follows the line style that is characteristic of the artist and their common theme brings the focus to human connection.
The designs represent human interaction in a variety of forms based on balance and fluid communication.
Most of Dalli's designs for Affreschi & Affreschi are based on drawings that have been made with one line, that is, without lifting the pen from the paper. In this way, the artist seeks to transmit a sense of unity, fluidity and minimalism.
With Pablo Picasso being one of the most recurrent sources of inspiration, one line art style is gaining more and more recognition nowadays, linked with the philosophy of minimalism and simplification which are also one of the most demanded interior design trends.

María Dalli

María Dalli è un'artista autodidatta di Valencia, Spagna.

Utilizzando linee improvvisate e figure umane destrutturate, le sue opere mostrano un interesse primario nel semplificare la complessità e nel trovare la bellezza e l'equilibrio delle forme asimmetriche.

Il lavoro originale di Dalli include sia disegni minimali a linea singola, sia coloratissimi dipinti acrilici, con una crescente propensione verso l'arte digitale.

mariadalli.com

María Dalli is a self-taught artist based in Valencia, Spain.

Using improvised lines and deconstructed human figures, her artwork exhibits a primary interest in simplifying the complex and in finding the beauty and balance of asymmetrical shapes.

Dalli's original work includes both minimal oneline drawings as well as colourful acrylic paintings, and she has increasingly been focused on digital art.
