

MAJESTIC

A collection inspired by some of the most **refined marbles** in the world.

Majestic by Ceramiche Piemme researches and reinterprets the most **precious marble** effects to tackle any type of project, residential or **commercial**, with its unmistakable style.

Majestic's stylistic contribution deliberately goes beyond the usual schemes of **classicism**, and aims to offer interior design a new perspective in using the marble effect to dress spaces with an eclectic and **fashionable** style with the latest colorbody porcelain technology.
