Trasformiamo il mondo dei semipreziosi
donando loro identità nuova.

Andiamo oltre la pura estetica, la pietra
diventa linguaggio, un codice stilistico
capace di esprimere bellezza e versatilità.

La materia prende vita attraverso l'alchimia
tra natura e design, dove ogni sfumatura
racconta una storia.

We transform the world of semiprecious stones by giving them a new identity.

Beyond pure aesthetics, the stone becomes a language, a stylistic code capable of expressing beauty and versatility.

The material comes to life through the alchemy of nature and design, where every shade tells a story.

Ridefinire il lusso ***attraverso la materia***

Nemesi è nata per ridefinire il concetto di lusso. Trasforma i semipreziosi in superfici, oggetti di design e complementi d'arredo dove la materia è versatile e si evolve a creazione personale.

Ogni pietra, ogni elemento nasce dall'incontro tra innovazione e savoir-faire artigianale. Parla a una nuova generazione di amanti del lusso, consapevoli e audaci, che vedono nei materiali non solo bellezza, ma una affermazione di stile e identità.

La ricerca attenta della filiera e il ciclo produttivo di Nemesi spaziano su orizzonti internazionali, unendo Oriente e Occidente, acqua e terra, vulcani e distese oceaniche, dalle miniere millennarie dell'India, all'estrazione in grotte preistoriche, fino all'Italia, dove le tecniche artigianali tradizionali si fondono con le avanguardie più recenti, garantendo standard qualitativi elevati e dal grande valore simbolico.

Nemesi seleziona oltre 100 varietà di minerali provenienti da tutto il mondo, distinguendosi per rarità, trasparenza, colore e luminosità. Ogni pietra è scelta per le sue caratteristiche originali, brillantezza e versatilità, garantendo prodotti esclusivi e di pregio.

Utilizziamo solo materiali di alta qualità, come agata, quarzo, diaspro e madreperla, trasformandoli in superfici e oggetti di design che esaltano le caratteristiche naturali di ogni pietra.

Il nostro design fonde natura, arte e tecnologia, creando prodotti unici che riflettono l'eleganza e la raffinatezza del lusso contemporaneo. Ogni pezzo è lavorato a mano e personalizzato secondo le esigenze del cliente, offrendo infinite possibilità di personalizzazione.

Nemesi was born to redefine the concept of luxury. It transforms semi-precious stones into surfaces, design objects, and furnishings where matter is versatile and evolves into a personal creation.

Each stone, each element is the result of the encounter between innovation and artisanal savoir-faire. It speaks to a new generation of luxury enthusiasts—conscious and bold—who see materials not just as beauty, but as a statement of style and identity.

Nemesi's careful research into the supply chain and production cycle span international horizons, embracing East and West, water and land, volcanoes and ocean lands, from the millennia-old mines of India, to mining in prehistoric caves, to Italy, where traditional craft techniques merge with the latest avant-garde, ensuring high quality standards with great symbolic value.

Nemesi selects over 100 varieties of minerals from around the world, distinguished by their rarity, transparency, color, and brilliance. Each stone is chosen for its unique characteristics, luminosity, and versatility, ensuring exclusive and prestigious products.

We use only high-quality materials such as agate, quartz, jasper, and shellstone, transforming them into surfaces and design objects that enhance the natural characteristics of each stone.

Our design philosophy merges nature, art, and technology, creating unique products that reflect the elegance and sophistication of contemporary luxury. Each piece is handcrafted and customized to meet client needs, offering endless possibilities for personalization.

L'eleganza naturale *che veste gli spazi*

Pietra raffinata e ricca di sfumature, l'Agata è proposta in tre varianti decorative, ideali per arredi e superfici dal forte impatto visivo.

Agata Cristallo: giochi di luce e chiaroscuri dal bianco al tortora, perfetti per ambienti luminosi e sofisticati.

Agata Dorata: venature ambrate e riflessi dorati, tra toni caldi e freddi, per spazi contemporanei e scenografici.

Agata Blu: profondità oceaniche e striature bianche, per ambienti eleganti dal carattere deciso.

Tre espressioni di una pietra senza tempo, che dona luce, materia e stile agli interni.

A refined stone rich in nuance, Agate is available in three decorative variations, ideal for furniture and surfaces with strong visual impact.

***Crystal Agate**: light plays and soft contrasts from white to taupe, perfect for bright and sophisticated spaces.*

***Golden Agate**: amber veins and golden reflections, blending warm and cool tones for contemporary, scenic interiors.*

***Blue Agate**: ocean depth and delicate white streaks, for elegant spaces with a bold personality.*

Three expressions of a timeless stone that brings light, texture, and style to any interior.

Purezza minerale, ***armonia naturale***

Essenziale e sofisticato, il Quarzo arreda con leggerezza e carattere, declinato in tre tonalità che riflettono la bellezza della natura in chiave contemporanea.

Quarzo Bianco: trasparenze lattiginose e riflessi perlacei, per ambienti luminosi, ariosi e minimalisti.

Quarzo Rosa: dal cipria al magenta, evoca tramonti e fioriture delicate, trasmettendo calore ed eleganza.

Quarzo Verde: sfumature menta e smeraldo che richiamano linfa e freschezza, per spazi vitali e rigeneranti.

Tre nuance, un'unica essenza: bellezza naturale e materica al servizio del design.

Essential and refined, Quartz enhances interiors with lightness and character, offered in three tones that reflect the beauty of nature in a contemporary key.

White Quartz: *milky translucence and pearly reflections for bright, airy, and minimalist spaces.*

Rose Quartz: *from blush pink to deep magenta, it evokes sunsets and delicate blooms, bringing warmth and elegance.*

Green Quartz: *mint and emerald hues recall chlorophyll and fresh energy, ideal for vibrant, refreshing interiors.*

Three shades, one essence: natural, tactile beauty in the service of design.

La forza della terra, *il calore del colore*

Materia viva e vibrante, il Diaspro interpreta la natura attraverso cromie intense e texture autentiche, capaci di trasformare ogni spazio in un racconto materico.

Diaspro Neutro: toni sabbia e marrone chiaro, con venature delicate e una texture morbida, per ambienti caldi ed equilibrati.

Diaspro Arancio: aranci intensi e riflessi dorati, per superfici solari, ricche di energia e luminosità.

Diaspro Verde-Blu: sfumature petrolio e blu profondo, evocano paesaggi naturali e trasmettono calma e profondità.

Tre tonalità, un'anima radicata nella terra: il Diaspro arreda con intensità, calore e autenticità.

A vibrant and living material, Jasper channels nature through intense hues and authentic textures, transforming every space into a story shaped by matter.

Neutral Jasper: *sandy and light brown tones with soft, delicate veining, ideal for warm, balanced interiors.*

Orange Jasper: *vivid oranges and sparkling golden reflections infuse surfaces with radiant energy and brightness.*

Green-Blue Jasper: *a blend of petrol green and deep blue shades that evokes natural landscapes and brings a sense of calm and depth.*

Three tones, one earthy soul: Jasper furnishes spaces with intensity, warmth, and authenticity.

Energia luminosa, ***eleganza naturale***

Preziosa e delicata, la madreperla si distingue per la sua texture irregolare e luminosa, che richiama la superficie variegata delle conchiglie e i sedimenti marini.

Madreperla Brick: Dal beige dorato al marrone chiaro, la sua texture richiama la bellezza organica dei sedimenti marini e la superficie variegata delle conchiglie, mentre la sua disposizione in "brick" dona rigore e regolarità ad ogni ambiente. Perfetta per creare atmosfere accoglienti e sofisticate e un tocco Art Déco.

Madreperla Random: Questa madreperla offre una varietà di sfumature neutre, dal bianco crema al grigio chiaro, punteggiate da inclusioni naturali millennarie. Ogni lastra, unica ed organica, aggiunge carattere e autenticità agli spazi.

Due sfumature, un'unica essenza: la Madreperla veste gli spazi con luce naturale, eleganza e autenticità.

Precious and delicate, mother-of-pearl stands out with its luminous, irregular texture reminiscent of seashells and marine sediments.

Shellstone Brick: *from golden beige to light brown, its texture evokes the organic beauty of marine sediments and the variegated surfaces of shells, while the brick-like arrangement brings structure and regularity to any interior. Perfect for creating warm, sophisticated atmospheres with a refined Art Deco touch.*

Shellstone Random: *this variety of mother-of pearl features a range of neutral tones—from creamy white to light grey—punctuated by millennia-old natural inclusions. Each slab, unique and organic, adds character and authenticity to the space.*

Two shades, one essence: Mother-of-Pearl dresses spaces with natural light, elegance, and authenticity.

Pietra affascinante e sofisticata, l'Occhio di Tigre si distingue per i suoi riflessi dinamici e per la profondità delle sue tonalità, che vanno dall'oro all'ambra, fino al marrone caldo.

Tiger Eye Brick: bande luminose e iridescenti che creano un effetto ottico vibrante, per ambienti ricchi di carattere e lusso.

Tiger Eye Random: venature disposte in modo irregolare per un look organico e autentico, con riflessi intensi che aggiungono un tocco selvaggio e sofisticato.

Due varianti, un'unica identità: l'Occhio di Tigre riveste gli spazi con forza, movimento e luce preziosa.

A captivating and sophisticated stone, Tiger Eye is known for its dynamic reflections and rich tones ranging from gold and amber to warm brown.

Tiger Eye Brick: *luminous, shimmering bands create a vibrant optical effect–ideal for interiors full of character and luxury.*

Tiger Eye Random: *irregular veining offers a more organic, authentic look, with deep, radiant tones that add a wild yet refined touch.*

Two variations, one identity: Tiger Eye brings strength, movement, and precious light to every space.

La memoria del tempo, ***scolpita nella materia***

Antico e affascinante, il Legno Pietrificato racconta millenni di trasformazione, unendo l'estetica naturale del legno alle qualità solide della pietra.

Legno Pietrificato Classic: sfumature calde di noce, sabbia e ambra bruciata restituiscono il fascino di venature fossili, ideali per ambienti dal gusto autentico e materico.

Legno Pietrificato Retrò: toni di grigio, tabacco e avorio si intrecciano in una texture organica ed elegante, perfetta per spazi sofisticati che celebrano il tempo.

Due anime, un'unica storia: il Legno Pietrificato arreda con profondità, memoria e naturale bellezza.

Ancient and mesmerizing, Petrified Wood tells a story of transformation, merging the natural look of wood with the enduring strength of stone.

Classic Petrified Wood: *warm hues of walnut, sand, and burnt amber reveal fossil-like grain, ideal for tactile, authentic interiors.*

Grey Petrified Retro: *shades of grey, tobacco, and ivory form an elegant, organic texture—perfect for refined spaces that embrace the passage of time.*

Two spirits, one story: Petrified Wood brings depth, memory, and natural beauty to every interior.

Energia vibrante, ***eleganza cristallina***

Come una fiamma racchiusa nella pietra, la Corniola si distingue per le sue tonalità calde e luminose, dal rosso ruggine al corallo, fino ai riflessi dorati del miele d'ambra.

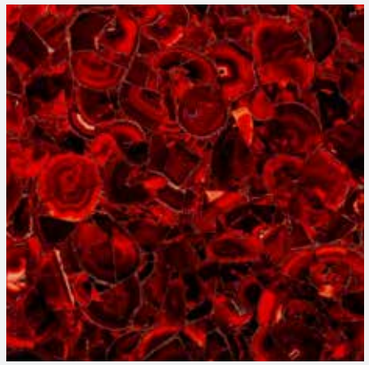

Simbolo ancestrale di passione e vitalità, questa pietra dal fascino trasparente aggiunge profondità e carattere a ogni superficie, illuminando gli spazi con calore e intensità.

Like a flame captured in stone, Carnelian stands out for its warm, radiant tones—rust red, coral, and golden amber.

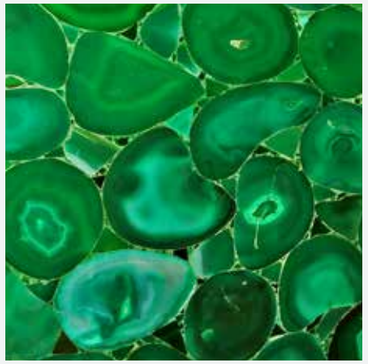

An ancient symbol of passion and vitality, this delicately translucent stone adds depth and character to any surface, infusing spaces with warmth and intensity.

Riflessi ***di luna***

Delicata, ma allo stesso tempo pungente, come la neve. Il suo nome deriva dal greco e richiama i riflessi lunari iridescenti.

Le sue sfumature di luce sono variazioni di bianco, ma al suo interno si possono trovare tracce di altri minerali.

I cristalli di selenite spesso mostrano una lucentezza simile al vetro e hanno una struttura fibrosa o colonnare unica.

Delicate, yet sharp, like snow. Its name derives from Greek, recalling iridescent lunar reflections.

Its light shades are variations of white, but traces of other minerals can be found within.

Selenite crystals often exhibit a glass-like luster and feature a unique fibrous or columnar structure.

L'incanto ***della foresta***

Il fascino ipnotico e primordiale delle foreste. Un incantesimo sussurrato, il segreto di popoli leggendari, la malachite è una pietra elegante, un vortice di verdi intensi, attraversata di venature ondulate e profonde, dall'aspetto marmoreo.

The hypnotic and primordial charm of forests. A whispered enchantment, the secret of legendary peoples, malachite is an elegant stone, a vortex of intense greens, traversed by undulating and deep veins, with a marble-like appearance.
