DIVISION 9 COLLABORATIVE

BAULUX

— CONCRETE —

Balux concrete collections are produced in Montreal with the finest raw materials and are offered pre-sealed for ease of cleaning and maintenance.

This is concrete at its most expressive. Classic & bold contemporary colors, traditional form holes and organic open pore textured surfaces that can be used as counter top, interior wall, floor and exterior applications.

The Terra Preciosa collection offers semi-precious stones embedded into the matrix of the concrete for a unique result that can work in any design concept.
