

Travertine

Where nature's beauty meets modern craftsmanship

MI  **E** *stone*
Sustainable Tile, Made in the USA

Travertine

For centuries, natural travertine has been shaped by the earth, its soft, flowing movement created as water coursed through limestone, forming breathtaking patterns. Known for its rich colors and timeless elegance, travertine has been a cornerstone in both ancient and modern architecture, embodying a sense of enduring beauty.

MILE[®]stone's Travertine Collection captures the effortless beauty of nature's artistry, blending the enduring charm of this classic stone with cutting-edge technology. The result—a breathtaking range of colors and sizes designed to transform any space with sophistication and style.

Progress that invests in the entire society

As an active member of the U.S Green Building Council, MILE[®]stone spreads awareness to the community and encourages the use of building solutions through environmentally friendly practices. Our products positively contribute to the requirements for obtaining the LEED (Leadership in Energy and Environmental Design) and WELL (IWBI) certifications.

A commitment to environmental sustainability and responsibility

We are committed to conscious development that minimizes the negative impact of manufacturing production on the environment. Our general approach to sustainability intersects with our business strategy to embrace three areas of responsibility: economic, social, and environmental. Some ways we prove this are:

- Products containing as much as 45% recycled content.
- Post-consumer recycled content levels as much as 3%.
- Zero industrial wastewater discharge.
- A 99% internal process recycling rate.
- 100% regionally sourced raw materials used in the production of the body of our tile, supporting local industries and sustainable practices.

MILE[®]stone is taking these and other steps, as well as actively investing to reduce carbon emissions to ensure that we reach full carbon neutrality.
